

Landscape Architect II

Objective:

The ideal candidate has 4 to 6 years of experience producing commercial hardscape and landscape construction document plans, preparing presentation graphics, and a clear understanding of landscape permitting. Employee must be resourceful, self-motivated, and bring a collaborative and positive attitude to the office.

Responsibilities and Duties

- Assist mid to senior level staff with completing project tasks, such as inventory & analysis, site inspections, and plan submittals.
- Ensure plans are produced and delivered on schedule.
- Gain knowledge of municipal regulations.
- Maintain a positive attitude and effective communication skills.

Customer Service

- Conduct oneself inside and outside of the office in a manner that reflects the dignity and professional attitude of the company. Foster and maintain a superior customer service attitude.

Desired Skills

- Proficiency in AutoCAD, Land F/X, Adobe Creative Suite, SketchUp, and Microsoft Office
- Ability to render plan, elevations, sections, and perspectives quickly and efficiently both digitally and by hand
- Knowledge of Georgia plants and nursery stock

Qualifications

- Bachelors or Master's Degree in Landscape Architecture and/or Urban Planning from an accredited University
